

CHETOUI Hossem

computer science student

Profile

Computer science student at ESI-SBA, and software developer, I can create software for various platforms, from mobile, web, desktop to microservices. After making hundreds of apps I find it natural to work with different programming languages, and frameworks.

I love learning new things and i always try to self improve.

I am a dedicated person who works hard to achieve what he wants, I have good communication skills and have worked in a team multiple times, Thus can integrate in one quite easily.

Experiences

Internship at A-Tech Solutions (atechdz.com) for 1 month working on a CRM/ERP app made with Asp .Net Core, September 2022

Projects in school :

- Mobile app for taking doctors appointments using Flutter (2021).
- Web App about managing Graduation Projects in a university, role: front end developer using vue js (2022).
- Mircoservice Web Application about renting houses, made using Asp Net Core, RabbitMQ, ReactJS, worked on Authentication and storage microservices for the app (2023).

Skills

Different technologies, tools and Frameworks am proficient at :

- .Net Core, C#, Java, Javascript, HTML, Css, Sass.
- Git, MVVM, MVC, UML, Agile Development.
- SQL,MS SQL Server, MySQL,SQLite, EntityFrameworkCore, Database administration (Oracle).
- UX/UI Design for mobile/web/desktop, Figma, Flutter, WPF, Xaml.
- Asp Net Core minimal APIs, MVC, Blazor Server/wasm.
- Docker, Unit Testing(xUnit), building and integrating web APIs.

Things i have quite a bit of experience with (made some projects with):

- MongoDB, React, Angular, Vue js, spring boot, epxress js, node, python, Django, RabbitMQ, Event Sourcing, jquery, bootstrap, Typescript.

Soft skills

powershell, linux, good grasp of concepts behind http, tcp, and networking in general, good problem solving abilities, sense of teamwork, punctual.
